egg white

TEQUILA & MEZCALS

What's the difference between tequila and mezcal?

TEQUILA

is only made from blue agave plants, produced using steam in industrial ovens and then distilling in copper pots. There's also some regional differences, much like we see with whiskey.

MEZCAL

can be made from more than 30 different varieties of agave plant and is generally cooked in earthen pits filled with lava rocks, wood and charcoal before being distilled in clay pots.

CONDESA
TORRENSVILLE

La Condesa is a beautiful bohemian district within Mexico City. The streets are lined with trees, stunning Art Deco buildings and a bounty of hip and arty boutiques, restaurants and cafes. From cosy and charming bookshops during the day to dancing in the streets at night, you will fall in love with the place. Condesa Torrensville is a new take on traditional Mexican food, encapsulating the essence and flavours of the beloved Mexican streets. Our menu is made for sharing but even if flying solo, we have an extensive list of tequilas and mezcals to keep you company.

Head Chef Ashley Nguyen was born in Australia and completed his apprenticeship at Zapata's Mexican (North Adelaide). He has twice won Best Mexican Restaurant in South Australia at Viva Zapata's (Semaphore) and Mexican Society (Chinatown) in his career as Head Chef since then. Born to Vietnamese/French and Irish parents, Ashley shows you can excel with any cuisine no matter your background, through passion and dedication. Living by the motto "food is everything" he has taken every opportunity to develop his culinary skills and knowledge of Mexican cuisine – allowing us to serve you some of the most authentic and modern Mexican dishes in Adelaide.

¡SALUD!
